Contraindication: The Vscan ultrasound unit is not intended for ophthalmic use or any use causing the acoustic beam to pass through the eye.

GE Vingmed Ultrasound A/S, Strandpromenaden 45, N-3191 Horten, Norway

Configure.
Open Gallery.
Select preset.
Make measurement.
Create examination.

Follow one of the three scenarios below.

Scenario 1
You have a computer with Internet access and you can install the software on the computer.
1) Install Vscan gateway software.
2) Dock Vscan and open the display.
3) Start Vscan gateway software (icon on desktop)
4) Follow instructions on screen to activate Vscan and Vscan gateway software.
5) Perform Vscan configuration (see below).

Scenario 2
You have a computer without Internet access but you can install the software on the computer.
1) Install Vscan gateway software.
2) Dock Vscan and open the display.
3) Start Vscan gateway software (icon on desktop)
4) Call your local GE Service contact (see “Global ultrasound support center phone numbers” included with your Vscan or in the user manual).
5) Follow instructions provided by GE Service to activate Vscan and Vscan gateway.
6) Perform Vscan configuration (see below).

Scenario 3
Vscan activation only when NOT installing the software.
If no Internet access:
1) Call your local GE Service contact to get the activation key (see “Global ultrasound support center phone numbers” included with your Vscan or in the user manual).
2) Perform Vscan configuration and insert the activation key (see below).
If you have Internet access:
2) Click on “Owners” then “Activation form”.
3) Fill in the form to retrieve the Vscan activation key.
4) Perform Vscan configuration and insert the activation key (see below).

See “Activation of the Vscan without Vscan gateway software” in the user manual for more details.

Vscan configuration
1. Select language.
2. Adjust time.
3. Adjust date.

Scenario 3 only
